

The Construction Division is soliciting abstracts for the 2011 ASEE Conference to be held in Vancouver, BC. We would like to have papers that cover, but are not limited to the following topics:

- Innovative teaching methods for construction
- Future directions in teaching construction
- Case studies for the classroom
- Integrating construction research into the classroom
- International aspects of construction

Abstracts are being accepted to October 8, 2010. For further information, contact Philip Dunn at [Philip.dunn@umit.maine.edu](mailto:Philip.dunn@umit.maine.edu) or at 207-581-2326
