2013 ASEE Annual Conference Call for Papers

The Aerospace Division (AERO) of ASEE invites papers for the 2013 Annual Conference and Exposition. Engineers and scientists in academia and industry from across the world are encouraged to submit current papers on any relevant topic on aeronautical and aerospace engineering and technology education. Suggested topics include, but are not limited to: aircraft and/or spacecraft design education, capstone and/or student industry experiences, K-12 and freshman design, systems engineering, and effective and innovative teaching and projects. In order to present your work at the conference and be published in the proceedings, an abstract and full paper (works-in-progress will be considered) must be submitted and accepted.

Abstracts and papers will be blind peer reviewed and judged based on the level of innovation, technical merit, demonstrated outcomes, and relevance to advancing aeronautical and aerospace engineering and technology education as appropriate. Special sessions, such as panel discussions, should be discussed directly with the program chair prior to abstract submission.

Questions regarding the abstract or paper submission can be directed to the AERO Program Chair, Dr. Kristi J. Shryock, Assistant Department Head, Department of Aerospace Engineering, Texas A&M University, by email: kristis@tamu.edu or by phone: 979.845.0735.

Please see ASEE’s 2013 Call for Papers (http://www.asee.org/conferences-and-events/conferences/annual-conference/2013/program-schedule/call-for-papers) to retrieve updates and information regarding deadlines.
