The **COLLEGE-INDUSTRY PARTNERSHIP (CIP) Division** invites papers and panels for the 2013 Annual Conference and Exposition. Engineers and scientists in academia and industry from across the world are encouraged to submit papers on any relevant topic on college-industry partnerships.

The CIP Division is Publish to Present. This means that in order to present your work at the conference, *an abstract and full paper must be submitted and accepted*. Abstracts and papers will be judged based on the level of innovation, technical merit, demonstrated outcomes, and relevance to college-industry partnerships in engineering education. Pure technical papers that have no educational component or ones describing courses that have not been taught will most likely not be accepted. All abstracts and papers must be submitted electronically via ASEE’s Monolith system (info available at [http://www.asee.org/conferences-and-events/conferences/annual-conference/2013/program-schedule/call-for-papers](http://www.asee.org/conferences-and-events/conferences/annual-conference/2013/program-schedule/call-for-papers)). Access conference information and submit via the main ASEE website: [http://www.asee.org](http://www.asee.org).

**Suggested Topics for Sessions for the CPD Division include:**

- Successful International Partnerships
- Use of Advisory Boards for Academic Programs
- Academic Partnerships with Industry: Lesson Learned
- Meeting the Needs of Veterans and Active Duty Military
- K-12 Programs and Partnerships
- How to Measure Return-on-Investment of Academic Programs
- Intellectual Property Issues: Academic and Corporate Perspectives
