CALL FOR PAPERS AND PRESENTATIONS

The Construction Engineering Division seeks presentations and invites submission of abstracts for the **2013 ASEE Annual Conference in Atlanta, Georgia on June 23 – 26, 2013**. Papers and presentations related to construction engineering and management education, partnerships between industry and academe, and the results of innovative or technological based educational practices will be considered. Topics of particular interest include:

- Cloud computing and other data management strategies
- Instructional strategies related to BIM
- Lean construction
- Integrated project delivery (IPD) and Alternative project delivery methods
- Challenges of and strategies for maintaining current technology
- Collaboration between construction educators
- Case studies in construction
- Ethics in construction

Abstracts should be approximately 500 words in length and should provide a clear statement of the objective and its relevance to the construction engineering and management community.

Abstracts must be submitted electronically through the ASEE website. Authors of accepted abstracts will be invited to prepare a full paper for peer review and publication in the conference proceedings. Papers must demonstrate an appropriate level of scholarship.

For additional information including deadlines and guidelines, please refer to: [http://www.asee.org/conferences-and-events/conferences/annual-conference/2013/program-schedule/call-for-papers](http://www.asee.org/conferences-and-events/conferences/annual-conference/2013/program-schedule/call-for-papers)
