2013 ASEE Annual Conference Call for Papers

The Cooperative Education and Experiential Division (CEED) invites submission of abstracts (and subsequently full papers) for the 2013 ASEE annual conference. Each abstract should be approximately 500 words long. Engineers or cooperative education and experiential education professionals from either academia or industry should consider submitting papers that are relevant to cooperative education, internships, or work-integrated learning. Suggested topics include, but are not limited to: learning outcomes realized through co-op/internship programs, and the importance of co-op/internships to program assessment and ABET accreditation; socialization of engineering students to the workplace; how co-op/internships help prepare engineering students for work in the 21st century; benchmarking of co-op programs by universities and employers; developing co-op/internship opportunities for international students; benefits realized by employers from hiring international co-ops/interns; international co-op and internship programs; collaborative efforts between industry and academia; the federal government and co-op/internships; and, co-op and experiential program collaborations with engineering departments.
