The **Engineering Design Graphics Division** invites papers for the 2013 Annual Atlanta, Georgia, from June 23-26, 2013.

All abstracts and papers will be peer reviewed and must conform to ASEE guidelines which require the author to present at the conference. Authors are invited to submit abstracts for the conference through the ASEE website.

Deadline for submission of abstracts is September 21, 2012. Abstracts should be 300-500 words in length. Topics should be of interest to the graphics education community.

Suggested topics include:

- accreditation
- assessment of design activities
- curriculum development
- design and graphics in a green environment
- distance education
- first year design and graphics
- graphics tools
- innovation in design education
- instructional methodology
- integrated design and graphics
- teams and teamwork in design education
- trends in graphics education
- using technology to enhance design education
- visualization
- web/multimedia instruction
