Dear PEP members,

The Physics and Engineering Physics (PEP) Division of ASEE seeks abstracts for papers to be presented at the ASEE Annual Conference Atlanta, GA, June 23 - 26, 2013. Topics of particular interest include:

- curricular and design innovations,
- laboratory development and innovation,
- physics teaching and learning techniques,
- undergraduate research,
- assessment of teaching and learning,
- novel approaches and methods for addressing student recruitment and retention,
- novel approaches and methods for addressing ABET engineering criteria,
- globalization of physics and engineering physics education
- pedagogical issues arising from the emergence of areas such as biomedical engineering and life sciences.
- Other topics of general interest in physics and engineering physics education/research will also be considered.

Abstracts of 200-300 words must be submitted electronically through the new ASEE paper submission system. Authors of accepted abstracts will have the opportunity to submit a full paper, which will be peer-reviewed for possible inclusion in the conference proceedings. Papers must be submitted and accepted for presentation in order to present at the conference. Access the web link: (http://www.asee.org/conferences-and-events/conferences/annual-conference/2013) for updates.

Proposals for special paper sessions or panel discussions should be submitted to the program chair Evan Lemley at elemley@uco.edu. Individuals interested in moderating a session or participating in the peer-review process please contact program chair for additional information.

All questions and inquiries about PEP session abstract and paper submission for the ASEE 2013 Conference can be directed to the program chair Evan Lemley.

Prof. Evan Lemley
Program Chair 2012-2013
