

WHAT IS CIEC?

The Conference for Industry and Education Collaboration (CIEC) was developed and is supported by four divisions of the American Society for Engineering Education (ASEE). The Conference serves as an annual mid-winter meeting for the Cooperative and Experiential Education Division (CEED), the College-Industry Partnership Division (CIP), the Continuing Professional Development Division (CPD), and the Engineering Technology Division (ETD). The Conference also serves as a common location and time for additional mid-winter meetings of other engineering education committees or groups such as the International Association of Continuing Engineering Education (IACEE) who schedule meetings before or after the Conference in the same facility.

The 2016 CIEC conference will be located at the Hyatt Regency Austin located at 208 Barton Springs Road, Austin, TX. Registration for the conference will open on October 15, 2015. For more information about the conference, visit the ASEE website at <http://www.asee.org/conferences-and-events/conferences/ciec/2016>

If you would like to participate in the CIEC EXPO and highlight your company's or university's programs or research opportunities, contact Candace House Teixeira at (housec@usc.edu).

Linda Schuver is coordinating the companion's program which will feature an Austin Eats tour and Austin Hill Country tour. Contact her for more information at lkschuver@gmail.com.
