

Haldun Midoglu
General Director
YENEL Ltd

Biography

Haldun Midoglu earned his BSc and MSc degrees from Middle East Technical University - METU Electronics Engineering department, in 1981 and 1985 respectively. He is now the General Coordinator and a shareholder of the company YENEL - Innovative and Inventive Electronic Systems Ltd, situated in the technopark METU Technopolis. Before establishing YENEL in 2001, he worked for the university as a research assistant during 1981-1984. Then, as an entrepreneur, he established the company MEKO with 4 friends from the university. He worked as the Technical Director during 1984-1986. He then established the company MOSTEK with one of his friends, where he worked as the Technical Director during 1987-2001. Recipient of the METU Appreciation Award, he has been the managing director of several R&D and product development projects. Electrical Safety Test systems for home appliances, Performance Lab Systems and Baby Incubators are a few to name.
