International Engineering Education, to take place in Atlanta November 10-13, 2005. With a focus on strategies and techniques for preparing young engineers for the future wasn't well defined – his work made a true difference.” Leighton Collins will be remembered with respect and affection by all who knew him and worked with him.

W. LEIGHTON COLLINS DIES

ASEE is saddened to learn that Leighton Collins died on August 10th. Collins served as ASEE’s Executive Director for 14 years, and in recognition of his fine service, the ASEE Board of Directors established an award in his name, the W. Leighton Collins Award. His was a life of service – as an educator, researcher, author, engineer, and civic leader. As former ASEE President and a recent winner of the Collins Award, John Weese observed, “Leighton really kept ASEE moving forward at a time when its future wasn’t well defined – his work made a true difference.” Leighton Collins will be remembered with respect and affection by all who knew him and worked with him.

URI COLLOQUIUM ON INTERNATIONAL ENGINEERING EDUCATION

The University of Rhode Island International Engineering Program and Georgia Institute of Technology are pleased to announce the Eighth Annual Colloquium on International Engineering Education, to take place in Atlanta November 10-13, 2005. With a focus on strategies and techniques for preparing young engineers for the global workplace, this meeting will bring educators together with members of the private and public sectors for information sharing and building a national agenda for the internationalization of engineering education. For flyers and more information, see the Colloquium Web site at: http://www.uri.edu/iep.
