

The **Industrial Engineering Division (IED)** of the American Society for Engineering Education (ASEE) seeks papers for presentation at the 2016 ASEE Annual Conference and Exposition in New Orleans, Louisiana, June 26-29, 2016. Abstract submission opens **September 1, 2015**; the deadline for submitting abstracts is **October 19, 2015**. Relevant submissions are welcome from all engineering disciplines. Considerations for acceptance include the level of innovation, technical merit, demonstrated outcomes and relevance to industrial engineering education. Authors are encouraged to submit work that could be useful to other IE faculty, including strategies for implementation. Purely technical papers that have no educational component or ones describing courses that will have not been taught will most likely not be accepted.

Topics of interest include, but are not limited to:

- Methods for developing and assessing industrial engineering competency
- Laboratory development
- Application of innovative approaches to IE education (e.g. flipped classes, problem-based learning, and use of emerging technologies)
- Educational resources such as case studies, web-based course modules, and lab materials for teaching industrial engineering topic
- Novel IE curriculum
- Design throughout the curriculum
- Capstone courses
- Outstanding outreach programs
- Involving undergraduates in research

The IED is a publish-to-present division. At least one author for each paper must register for and present at the conference. Authors of accepted abstracts will be invited to submit full-length papers for peer review. No “work in progress” papers will be considered. The submission and review processes are blind. Do not include the names of institutions or authors anywhere in the abstract or draft paper. All abstracts and papers must be loaded electronically through the ASEE paper management system. Additional information, including the Author's Kit with deadlines and formatting instructions, are available via the ASEE website: [For Authors](#).

****Paper Awards and Travel Grant****

- All accepted papers will be considered for the *IED Best Paper Award*.
- Qualified authors will be considered for the *New IE Educator Outstanding Paper Award*. New IE educators are tenure-track faculty members with fewer than seven years of full-time teaching experience.
- IED members who have not attended an ASEE Annual Conference are eligible for the *\$500 IE Travel Grant for New Attendees*. Recipients must present their paper in an IED session and can collaborate with other faculty who are active in ASEE. Email the

IED Program Chair at lpohl@uark.edu if you are interested in applying for the travel grant.

Please forward this message to persons who may be interested in presenting their work at the 2016 Conference. If you have any questions, feel free to contact me.
