

**Call for Abstracts**  
**2017 ASEE Annual Conference**  
**June 25-28, 2017 in Columbus, Ohio**

**Ocean and Marine Engineering Division**

**Abstract Portal opens September 6, 2016 and closes October 16, 2016**

The **Ocean and Marine Engineering Division** invites submission of 250-500 word abstracts in all areas related to ocean, marine, littoral, naval and coastal engineering education. Engineers in academia and industry from across the world are encouraged to submit papers on relevant topics. Abstracts should include educational or academic aspects for consideration. Topics of interest include, but are not limited to:

- ❖ Ocean, marine or coastal engineering education subjects
- ❖ Ocean or marine climate
- ❖ Ocean energy conversion
- ❖ Naval architecture and marine engineering
- ❖ Coastal or littoral environment
- ❖ Unmanned or remotely operated submersible vehicles
- ❖ Unmanned or remotely operated surface vehicles
- ❖ Globalization of ocean and marine engineering education
- ❖ OMED topics related to:
  - New teaching and learning strategies
  - Laboratory development and innovation
  - Challenge or Problem-based learning
  - Capstone/senior design and project-based curriculum
  - Best practices in curriculum/course development and industry needs
  - Issues related to nontraditional and underrepresented students
  - Student recruitment, outreach, and retention

Abstracts should provide a clear description of the objectives and motivation, relevant background, any assessment methods used, and results. Abstracts **MUST** be submitted electronically via the ASEE's Monolith system. The submission and review processes are blind. Do not include the names of institutions or authors anywhere in the abstract.

For additional information, including the Author's Kit with deadlines, instructions and formatting guidelines, and to upload your abstract, please go to **[www.asee.org](http://www.asee.org)**.

Paper submission is a two-step review process consisting of abstract submission, review and acceptance, followed by a full manuscript submission, review and acceptance. Only accepted papers will be presented at the conference. If you have questions, please contact:
