Call for Abstracts
2018 ASEE Annual Conference
June 24-27, 2018 in Salt Lake City, Utah

Ocean and Marine Engineering Division

Abstract Portal opens September 5, 2017 and closes October 17, 2017

The **Ocean and Marine Engineering Division** invites submission of 250-500 word abstracts in all areas related to ocean, marine, littoral, naval and coastal engineering education. Engineers in academia and industry from across the world are encouraged to submit papers on relevant topics. Abstracts should include educational or academic aspects for consideration. Topics of interest include:

- ❖ Ocean, marine or coastal engineering education subjects related to:
  - New teaching and learning strategies
  - Laboratory development and innovation
  - Challenge or Problem-based learning
  - Capstone/senior design and project-based curriculum
  - Best practices in curriculum/course development and industry needs
  - Issues related to nontraditional and underrepresented students
  - Student recruitment, outreach, and retention
- ❖ Ocean or marine climate, ocean energy conversion, coastal and littoral environment
- ❖ Naval architecture and marine engineering
- ❖ Unmanned or remotely operated marine vessels
- ❖ Globalization of ocean and marine engineering education

Abstracts should provide a clear description of the objectives and motivation, relevant background, methods of assessment, and results. Abstracts MUST be submitted electronically via the ASEE's Monolith system. The submission and review processes are blind. Do not include the names of institutions or authors anywhere in the abstract.

For additional information, including the Author's Kit with deadlines, instructions and formatting guidelines, and to upload your abstract, please go to **www.asee.org.**

Paper submission is a two-step review process consisting of abstract submission, review and acceptance, followed by a full manuscript submission, review and acceptance. Only accepted papers will be presented at the conference.

All accepted papers that are presented at the conference will be considered for a OMED Best Paper award.

If you have questions, please contact:
