The Engineering Management Division (EMD) of ASEE seeks papers (abstracts) for presentation at the 2015 ASEE Annual Conference and Exposition in Seattle, Washington – June 14-17, 2015.

While session themes will depend upon the papers submitted, papers about any area of engineering management education will be considered. EMD is a publish-to-present division. Both abstracts and papers must be accepted to present.

Suggested topics include, but are not limited to: engineering management program organization, approaches to outcome assessment and program/course effectiveness, workplace applications of engineering management skills and concepts with educational implications (including academic-industry collaboration), success stories involving engineering management education, innovative teaching practices in engineering management, asynchronous or synchronous learning networks, or any aspect of engineering management education. Special consideration will be given to papers which address issues of diversity relevant to the Engineering Management discipline.

Submitted abstracts should be approximately 200 - 300 words in length and will be peer-reviewed. The abstract should provide a clear statement of the work's objective, its relevance to engineering management. All abstract and paper submissions will be handled electronically through Monolith. Submissions must be completed electronically, and due dates and times indicated on the ASEE website must be met without exception. For additional information including deadlines and guidelines, refer to: http://www.asee.org for the upcoming 2015 conference in Seattle.

For more information, please contact the Engineering Management Division Program Chair, Dr. Craig Downing, below are contact details:
