Thank you for participating in the CoNECD - Collaborative Network for Engineering and Computing Diversity

This kit is a guide to help you submit and manage all abstracts and papers/presentations. Authors are responsible for following the procedures and meeting all deadlines and requirements in the paper submission process. CoNECD is not responsible for papers/presentations that are withdrawn because they were incomplete or deadlines were missed.

The Conferences Department of the American Society for Engineering Education is the logistics manager for this conference, therefore, if you have any questions, please contact the ASEE Conferences Staff at conferences@asee.org or 202-350-5720. If you have questions regarding your abstract or paper/presentation submission, contact the Program Chair at conecd.program@gmail.com.

Regards,

Patti Greenawalt
ASEE Managing Director
CoNECD Conference Deadlines

All deadlines occur 23:59 EDT on the days listed

Author Responsibilities

Each Author who submits an abstract and paper/presentation should:

- Read this kit and follow all of the instructions (this is extremely important)
- Submit their abstract as a TEXT ONLY and their draft as a PDF ONLY
- Acknowledge the Plagiarism Policy (see Appendix E)
  - Check that all information; from the paper/presentation title to the spelling of co-authors’ name/s, is correct
- Indicate who is presenting the paper/presentation (see Appendix A to add co-authors)
- Pay the registration fee
- Accept the copyright transfer
- Assign someone else to manage your submission or pay your fees, if you are unavailable to do so yourself
- Contact ASEE Conferences Staff at conferences@asee.org or 202.350.5720 with any questions or problems

Potential problems

Be advised, your paper/presentation will not be published if you:

- Fail to submit a final copy of the paper/presentation before the deadline
- Fail to register for the conference by the deadline
  - Fail to assign the paper’s/presentation’s copyright to ASEE so it can be published

Other authors have had papers/presentations published with unfortunate mistakes. Please don’t let these happen to you:

- Failure to add co-authors and check the spelling of their names before marking your submission as finalized
- Failure to proofread your biography before submitting the final paper/presentation
- Failure to check the uploaded version of the final paper/presentation for formatting and other errors (See Appendix F for IEEE Style paper formatting; Appendix G for presentation formatting requirements)
BE ADVISED!

- CoNECD has the right to withdraw papers/presentations from the Conferences proceedings if registration fees are not paid.
- All registration for authors is final & cannot be refunded after the Early Registration deadline.

Conditions:

- Peer review occurs for both abstracts and papers/presentations. Abstract acceptance does not guarantee acceptance of the paper/presentation. All Programs have a Publish-to-Present requirement and final papers/presentations must be written and accepted in order for the work to be presented at the CoNECD Conference.

- In addition, the Program Chair has the sole discretion to assign the accepted paper/presentation to a technical session (for oral presentation) or a poster session.

- Submission of abstracts and final papers/presentations will be via the Monolith system and in accordance with CoNECD published deadlines.

- **Plagiarism Policy:**
  - You will be required to acknowledge and accept the plagiarism policy before you can submit your abstract. The plagiarism policy can also be found in Appendix E.

Logging into the System

- From the home page (http://www.asee.org), click on “log in” in the upper right hand corner.
MEMBERS

- If you are an ASEE member, do not try to register for a new account, please contact us at conferences@asee.org for assistance if you are unable to activate your account.
- When you return on subsequent visits, log in with your email address and the password you chose when activating or registering.

NON-MEMBERS

- If you are a non-ASEE member, you must create an account with us.

WELCOME PAGE

- You will be taken to your Welcome Page where you will find “Upcoming Conferences” click on that and then click on Collaborative Network for Engineering and Computing Diversity Section.
Paper/presentation procedures

If you have any questions regarding your paper/presentation reviews, revisions, accept/reject decision or paper/presentation assignments to timeslots; you must contact the Program Chair directly. Formatting and Style instruction are in Appendices C (Draft paper) and D (Final paper) and G (presentation).

The Program Chair can be contacted at conecd.program@gmail.com.

All Programs are publish to present. For a paper/presentation to be presented at the Annual Conference or included in the Conference Proceedings, it must pass through the entire review process and be accepted as shown below.

**Abstract**  Author submits abstract
  - Program Chair assigns reviewers
  - There is a minimum of one (1) review required for an abstract
  - Reviewers read, rank, and comment on abstract
  - Program Chair accepts or rejects abstract

**Draft**  Author submits draft
  - Program Chair assigns reviewers
  - Three (3) reviews are required for a draft paper/presentation
  - Reviewers read, rank, and comment on paper/presentation
  - Program Chair receives reviewers requested revisions, consolidates revisions and sends them to Author if applicable
  - Program Chair accepts/rejects paper/presentations and revised papers/presentations

**Register**  Author pays registration fee

**Ready to Publish**
  Author submits final paper/presentation
  All blind indicators removed

**Action ITEM 1: Submitting an abstract**

To submit an abstract, enter the text in the box indicated and enter the required information about yourself and the abstract. You can select exactly how your name and institutional affiliation will be printed in the conference proceedings.
Please be sure that an Author bio is included for each submission.

BE ADVISED!

- You will be prompted to acknowledge the ASEE Plagiarism Policy before you can submit your abstract.

From the paper management screen, you can see all of the papers/presentations you have submitted or have been assigned to review.

After you submit the abstract, it appears on your paper management screen with the status message Can edit abstract.

BE ADVISED!

- Reviewers can be assigned as soon as abstracts are submitted. You will NOT be able to make any edits to abstracts once it’s submitted.
  - Therefore, please only submit the abstract text when it is ready to be reviewed.
- Once reviews are in progress, the abstract’s status changes to “Waiting”
- If you need to revise your abstract after it’s assigned to a reviewer, you must contact your Program chair for assistance. It is at your chairs’ discretion whether they will update the abstract for you or not.
After the reviews are finished, the Program chair decides to accept or reject your abstract. If your abstract is accepted, the status changes to *Upload draft*.

**ACTION ITEM 2: Submitting your draft**

If your abstract is accepted, the status changes to “upload draft.”

- The details page provides a link to read comments from reviews as forwarded by the Program chair.
- When the draft version is completed, *Choose file* (as a PDF only) and *Upload draft* to submit it. Make sure that the PDF file you upload doesn’t include your name or initials.
- You can upload your draft as often as needed until the Program Chair assigns the draft to be reviewed.
- Again, the status changes to *Waiting* until the reviews are complete and the Program Chair has made his or her decision.

**BE ADVISED!**

- Reviewers can be assigned as soon as drafts are submitted.
  - Therefore, do not submit your draft until it is ready to be reviewed
- Once reviews are in progress, the status changes to *Waiting*”
- If you need to revise your draft after it’s assigned to a reviewer, you must contact your Program Chair for assistance. It is at your chairs’ discretion whether they agree to upload a new version of the draft for you or not.

If the draft is accepted as is, its status changes to *upload final*. 
If Revisions have been requested ...

- As with abstracts, you can view comments from the reviewers on the draft’s details page.
  - If the draft is accepted with revisions, its status changes to *Revise*.
  - When the requested revisions are ready, select the PDF file and *Upload*.
  - When requested revisions for the draft are uploaded, its status changes to *Waiting* until it is accepted or rejected by the Program Chair.

**BE ADVISED!**

- If you have been requested to make revisions, the system automatically assigns the revision to a reviewer as soon as it is uploaded. Therefore, you will only be able to upload ONE VERSION of a revision, so please be sure it is the correct one.
- If you need to upload a different version of the revision, you must contact your Program Chair for assistance. It is at your chairs’ discretion whether they agree to upload a new version for you or not.
- ASEE HQ Staff cannot upload any attachments for you. That is done only by the Chair.

Edits cannot be made during the “waiting” stage.
Acceptance:
Once the final is accepted by the chair, one author must register and pay for the conference.

BE ADVISED!
- Your presentation will be withdrawn if at least one author is not registered by the deadline.
- The presenting author must be a registered participant in order to present at the conference.

ACTION ITEM 3: Finalize:
You will need to finalize your draft by completing the following requirements:
1. Upload the final version of your paper/presentation with the blind components reinstated, such as name, institution, etc.
2. Accept the Copyright.
3. Make sure all co-authors have been invited, accepted the invitation, and have completed their information.
   a. See instructions for adding co-authors.
   b. Check for correct spelling of co-authors names.
4. Submit final version of all author bio/s.
5. Review paper/presentation prior to final submission for formatting errors or concerns.

BE ADVISED!
- Presentations cannot be assigned to a session until the paper/presentation is finalized

Session Assignments:
1. You can go to www.asee.org/osl to confirm session slot times once presentations are assigned.
2. Presentations are assigned by preferred order by the Program Chair.
3. If you have any issues with any session assignments, you must contact the Program chair directly.
   a. ASEE HQ staff cannot re-assign papers/presentations. That is only done by the Program Chair.
**On-site Presenter Guidelines**

**Presenter**

- You have been assigned to present your paper/presentation at the Collaborative Network for Engineering and Computing Diversity.

- If you cannot present or feel you got the request in error, contact the corresponding author directly.

**Registration**

Be advised, that you must **BE REGISTERED** to present your paper/presentation at the CONECD National Collaborative for Engineering Diversity.

**Technical Issues**

If you’re having technical difficulty accessing the paper/presentation through the website, contact the ASEE Conferences staff at conferences@asee.org or 202-350-3720.

**Session Issues**

If you have any questions regarding the session content, please contact the Program chair directly.

**To access your presentation**

1. Log into www.asee.org
2. Click on Upcoming Conferences
3. Click on National Collaborative for Engineering Diversity
4. Click on Manage Papers/presentations

**Presenter Responsibilities**

1. Each session is 40 minutes long, with 1 presentation per session. You should assume 38 minutes for presentation and Q&A as a maximum. There will be a 10 minute break between sessions.
2. The Program chair has determined the timeslot and order that papers/presentations will be presented. If you have any issues with scheduling, contact the Program Chair directly.
3. There are two moderators assigned to each technical session. They are responsible for keeping the session on schedule. Please take your direction from them on-site.

**On-site Presentation Guidelines**

1. PowerPoint is the preferred presentation method.
2. A screen, LCD projector, podium and mic are provided in the session rooms. Computers are NOT PROVIDED in the rooms, therefore please bring your laptop as well as your presentation on a flash drive.
3. VGA and HDMI connections are available for the projectors ONLY - if you require a different type of connection, please BRING IT WITH YOU.
4. Wireless internet is not guaranteed in meeting rooms and if available it can be unreliable. We suggest presenters use their cell phone as a hot spot for their presentation if available and/or necessary.
APPENDIX A

Adding co-authors

Every paper/presentation has one main or corresponding author, who conducts all of the main business previously discussed.

If your paper/presentation has co-authors, you should invite them so that they can log in, accept the invitation and confirm how their names, institutions, and biographies will be printed in the paper/presentation, in the program and on the conference proceedings.

- Co-authors can also view the paper's/presentation’s status.

BE ADVISED!

- Only corresponding authors can upload attachments and only corresponding authors can assign that designation to a different co-author.

In the Authors section, add a co-author by searching for a name or institution.

- If the co-author is an ASEE member or has previously participated in the conference, he or she will appear in the search results.
• If you can’t find a co-author by name, try their email address. If we don’t have an account for that address, you can invite them by email.
  The co-author can then create an account and decide how their name, institution, and biography will appear.
• Once you have added co-authors, you can place them in order. The ordering you set will be the order they appear in the program guide and on the paper’s/presentation’s cover page.
  Also the default is for the corresponding author to be the one presenting the paper/presentation. If that is not correct, please select the presenting author from the list of co-authors. This can be done using the radio button next to the co-author.
APPENDIX B
ABSTRACT FORMAT GUIDELINES

BE ADVISED: ABSTRACTS ARE SUBMITTED VIA TEXT BOX ONLY. PLEASE NOTE THE FOLLOWING:

**Title:**
1. **Title:** The title must be included
2. **Author and Affiliation:** Submissions are done in a double blind. No author or affiliation information is to be included on any abstracts.
3. **Footers:** Do not include any in your abstract.

**Body of the Abstract (beginning under title information)**
1. **Length:** Abstracts should generally be between 1000-2000 words.

**Biographical Information**
Biographical information is to be saved in Monolith on the Author/Co-Author page. It will be automatically added to your paper/presentation at the end of the process.

**Other**
Do not include session numbers in any part of the document, unless specifically requested to do so by a Call for Papers/presentations.

**Additional Guidelines and Suggestions:**

- As appropriate, include the pedagogical theory or approach being used;
- Indicate the form that your outcome(s) will take as appropriate;
- As applicable, methods of assessment should be made clear.
APPENDIX C
DRAFT PAPER FORMAT GUIDELINES

Title Page (top part of first page only)
1. Title of Paper: The title must be centered with at least a one and one-half inch margin on the left and right.
2. Font: Times New Roman typeface is required, bold faced, 14 point.
3. Author and Affiliation: Submissions are done in a double blind. No author or affiliation information is to be included on any abstracts or draft papers.
4. Footers: These will be automatically added to your papers. Please leave them blank.

Body of the Paper (beginning under the title information on the first page and continuing with all subsequent pages)
1. First Page: The paper will be in a one-column format with left justification. There must be a one inch margin on the left, right, and bottom. Font: Times New Roman typeface is required, 12 point, skipping one line between paragraphs.
2. Second and All Subsequent Pages: There must be a 1 inch margin all around (top, bottom, right, left) in one column format, left justification, skipping one line between paragraphs. Font: Times New Roman typeface is required, 12 point, using only standard symbols and abbreviations in text and illustrations.
3. Abstracts: Abstracts are not required, but can be included between the title and the body of the paper, but not on a separate page.
4. Headings: Headings are not required but can be included. If used, headings must be left justified, lowercase, with the same font and size as the body of the paper. There must be only one blank line between the heading and the paragraph.
5. Page Numbering: Do not number the pages.
6. Length: There is no set limit for the number of pages a paper can or must be. (Please note, even though there is no current limit for the number of pages, reviewers as well as readers of your work appreciate conciseness.)

References:
The preferred reference style is IEEE - see appendix F

Biographical Information
Biographical information is to be saved in Monolith on the Author/Co-Author page. It will be automatically added to your paper.

Other
Do not include session numbers in any part of the document.
APPENDIX D
FINAL PAPER FORMAT GUIDELINES

Title Page (top part of first page only)
1. Title of Paper: The title must be centered with at least a one and one-half inch margin on the left and right.
2. Font: Times New Roman typeface is required, bold faced, 14 point.
3. Author and Affiliation: No author information is to be included since that is saved in Monolith. Any placeholders used to disguise affiliation in the draft paper (such as “University of_______”) should be replaced with the affiliation information
4. Footers: These will be automatically added to your papers. Please leave them blank.

Body of the Paper (beginning under the title information on the first page and continuing with all subsequent pages)
1. First Page: The paper will be in a one-column format with left justification. There must be a one inch margin on the left, right, and bottom. Font: Times New Roman typeface is required, 12 point, skipping one line between paragraphs.
2. Second and All Subsequent Pages: There must be a one inch margin all around (top, bottom, right, left) in one column format, left justification, skipping one line between paragraphs. Font: Times New Roman typeface is required, 12 point, using only standard symbols and abbreviations in text and illustrations.
3. Abstracts: Abstracts are not required, but can be included between the title and the body of the paper, but not on a separate page.
4. Headings: Headings are not required but can be included. If used, headings must be left justified, lowercase, with the same font and size as the body of the paper. There must be only one space between the heading and the paragraph.
5. Page Numbering: Do not number the pages.
6. Length: There is no set limit for the number of pages a paper can or must be. (Please note, even though there is no current limit for the number of pages, reviewers as well as readers of your work appreciate conciseness.)
7. Pages can be landscape to accommodate graphics if necessary, all other requirements above still apply.

Biographical Information
Biographical information is to be saved in Monolith on the Author/Co-Author page. It will be automatically added to your paper.

References:
The preferred reference style is IEEE - see appendix F

Other
Do not include session numbers in any part of the document.
The 2020 CoNECD conference will utilize the ASEE Plagiarism policy as outlined below: note this applies to both papers/presentations and to presentations.

Policy on Plagiarism and Duplicate Publication
American Society for Engineering Education

May 31, 2013; Revised October 2, 2014

Preamble

The American Society for Engineering Education serves the engineering and technology communities by offering professional conferences, networking opportunities, and support of research in the various fields of engineering and technology related to education. Research is disseminated to the wider community via the organization’s professional publications. ASEE subscribes to the highest standards of ethical conduct, as detailed in the “ASEE Statement on Engineering Ethics Education,” located on the society’s website at http://www.asee.org/about-us/the-organization/our-board-of-directors/asee-board-of-directors-statements/engineering-ethics-education.

In scholarly publication, plagiarism occurs when an author copies the words, illustrations, and ideas of others without identifying the sources. Plagiarism is unethical because it represents the theft of the intellectual work of others, and the subsequent misrepresentation of that work as the author’s own. An act of plagiarism not only violates intellectual property rights but is anathema to the principle of academic integrity, which is fundamental for scholarly research, writing, and publication. Inadvertent publication of plagiarized material can undermine the quality of a journal or proceedings.

When authors copy not from others but from themselves, by publishing the same article in multiple journals, the practice is called redundant or duplicate publication. Compared with plagiarism, duplicate publication is generally considered less serious, but it is still unethical. (The only exception is when reprinting has been appropriately approved and permission obtained from the original copyright holder; e.g., a keynote speech that has also been published.) Duplicate publication of the same article wastes space in journals and time of reviewers. Duplicate publication misrepresents the author’s record of scholarly contributions, and it corrupts meta-analyses of multiple studies on the same subject.

This policy outlines the steps that ASEE will take in response to allegations of plagiarism and duplicate publication involving articles published in or submitted to ASEE journals, magazines, and conference proceedings, including the annual conference, section and zone meetings, and the global colloquium.

Definitions and Scope

1. The original paper is the paper or source from which the words and ideas were copied. The second paper is the paper in which the copied text later appears. This policy applies both when the second paper is a submitted manuscript and when the second paper has appeared in print.
2. This policy applies when either the original paper or the second paper has appeared in an ASEE publication, or when the second paper has been submitted to an ASEE publication.

3. In this policy, the author is the author of the second paper. The policy applies with equal force to all co-authors of the second paper.

4. Plagiarism occurs when the second paper copies a significant amount of text from the original paper without proper citation of the source (e.g., beyond “fair use” in copyright law). For this policy, plagiarism requires that the copying be either verbatim or nearly verbatim (with minor insignificant changes) without citing the original source. Whereas other definitions of plagiarism include close paraphrasing from an unattributed source, the strict definition in this policy enables editors to focus on the clearest cases, without expending effort to evaluate whether an instance of paraphrasing constitutes plagiarism. Note that citations are not required for ideas that are well known within the field of the paper.

5. Duplicate publication occurs when at least one author is in common between the original paper and the second paper.

6. For this policy, to qualify as a case of duplicate publication, the original paper must be an article in a peer-reviewed journal or peer-reviewed conference proceedings. When the original paper is on an un-reviewed website or in an un-reviewed conference proceedings, the submission or publication of the second paper is not considered duplicate publication; however, the author must notify the journal editor at time of submission as to where and when the paper was originally published. When the author republishes an original ASEE conference paper in a journal, the author or the journal first must secure a copyright release from ASEE, and the second paper must identify the original source.

7. The Editor-in-Chief of an ASEE publication is the editor who has ultimate responsibility for that publication. For an ASEE conference proceedings, the overall conference chair fulfills that role.

Procedure

1. An allegation of plagiarism or duplicate publication must be made by the initiator—who might be either a reviewer or reader—in writing. The allegation must include all relevant evidence, such as the original sources, and must be addressed to the Editor-in-Chief of the appropriate ASEE publication.

2. Within 14 calendar days, the Editor-in-Chief will review the allegation. If the Editor-in-Chief concurs that the allegation represents a potential instance of plagiarism or serious duplicate publication, the Editor-in-Chief will refer the allegation to an ad hoc investigation committee. If the Editor-in-Chief and the Executive Director of ASEE agree that the allegation represents duplicate publication of substantially less than 50% of the original or second paper, the Editor-in-Chief will request a correction from the author; if the author does not respond in writing within 30 calendar days, this process will continue.

3. The ad hoc investigation committee will be appointed by the Executive Director of ASEE. That committee will include an editor or associate editor from an ASEE publication who is not involved with the allegation and three other appropriate members whose expertise includes the subject matter of the papers/presentations named in the allegation.
4. The investigation committee will evaluate the written evidence and report its findings to the Editor-in-Chief within 30 days. If the committee finds clear and convincing evidence that plagiarism or duplicate publication has occurred, the report will recommend an appropriate sanction (see below).

5. If the allegation is not dismissed, the Editor-in-Chief will immediately forward the investigation committee’s report to each author of the second paper, inviting each to respond in writing within 30 days. The Editor-in-Chief may ask each author to describe the various roles of each co-author concerning the incident.

6. Within 14 days of receiving all of the authors’ responses, or after the 30 day response period has elapsed, the Editor-in-Chief will decide to either accept the recommended sanction or modify it as appropriate. The Editor-in-Chief will deliver the decision to the author, co-authors, and the investigation committee in writing.

7. If the second paper has multiple authors, the Editor-in-Chief may choose different sanctions for different authors, depending on their roles in the preparation of the second paper.

8. For each author who is at an academic institution, the Editor-in-Chief will send copies of the evidence, the investigation committee’s report, and the sanction notification to the research integrity officer (RIO) of the author’s institution. If the institution has no RIO, the Editor-in-Chief will notify the institution’s academic vice president or equivalent administrator.

9. The author may appeal the decision of the Editor-in-Chief to the Executive Director of ASEE, in writing, within 30 days. Upon reviewing the evidence, the Executive Director may reduce the severity of the sanction, but may not increase the sanction. The Executive Director will then convey the decision on the appeal to the author and the institution’s RIO. The Executive Director’s decision is final.

Sanctions

1. Extensive cases. A plagiarism case is considered extensive if more than 50% of the original paper is plagiarized, or more than 50% of the second paper represents plagiarized material. In this case, all of the author’s manuscripts currently under review by ASEE journals and conferences will be immediately rejected. In addition, the author will be prohibited from publication in ASEE publications for three to five years. If the second paper appeared in an ASEE journal or conference, a notice of plagiarism will be printed where appropriate.

2. Serious cases. A plagiarism case is considered serious if a substantial amount of either the original paper or the second paper is plagiarized. A duplicate publication case is serious if more than 50% of the original or second paper represents duplicated material. In this case, all of the author’s manuscripts currently under review by ASEE journals and conferences will be immediately rejected. In addition, the author will be prohibited from publication in ASEE publications for one to three years. If the second paper appeared in an ASEE journal or conference, a notice of plagiarism or duplicate publication will be printed where appropriate.

3. Significant cases. A case of plagiarism is considered significant if 300 or more consecutive words are copied verbatim or nearly verbatim. A duplicate publication case is significant if a substantial
amount of the original or second paper represents duplicated material. In this case, the author’s manuscripts currently under review by ASEE journals or conferences may be rejected. In addition, the author may be prohibited from publication in ASEE publications for at most one year.

Additional Policies

1. Confidentiality. The Editor-in-Chief and others involved in carrying out this policy will maintain the confidentiality of the identities of the initiator and the author, and the confidentiality of all correspondence regarding the case and its disposition.

2. Conflict of interest. All editors who have a conflict of interest with the author or the author’s institution will recuse themselves from this process.

3. Diversity. The Editor-in-Chief and others who carry out this policy will respect cultural differences in citation practices by different scholarly communities and academic disciplines.

4. Non-retaliation. If the initiator has brought the allegation in good faith, then there should be no retaliation against the initiator.

5. Records. After a finding of plagiarism or duplicate publication, if the second paper has appeared in an ASEE journal or conference proceedings, then the electronic version of the paper will be permanently marked as plagiarized or duplicated, and a reference to the source will be included.

6. Modifications. Minor modifications in this policy may be made at the discretion of the Executive Director of ASEE. For example, the Executive Director may extend a time period for good reasons, or appoint a substitute for the Editor-in-Chief in a case of conflict of interest.
APPENDIX F:

What is IEEE Style?

The Institute for Electrical and Electronics Engineers (IEEE) is a professional organization supporting many branches of engineering, computer science, and information technology. In addition to publishing journals, magazines, and conference proceedings, IEEE also makes many standards for a wide variety of industries.

IEEE citation style includes in-text citations, numbered in square brackets, which refer to the full citation listed in the reference list at the end of the paper. The reference list is organized numerically, not alphabetically. For examples, see the IEEE Editorial Style Manual.

The Basics:

In-text Citing  It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [1], that will then correspond to the full citation in your reference list.

• Place bracketed citations within the line of text, before any punctuation, with a space before the first bracket.
• Number your sources as you cite them in the paper. Once you have referred to a source and given it a number, continue to use that number as you cite that source throughout the paper.
• When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5] or [1]-[5].

The below examples are from Murdoch University's IEEE Style LibGuide.

Examples of in-text citations:

"...end of the line for my research [13]."

“This theory was first put forward in 1987 [1]."

“Scholtz [2] has argued that...”

“Several recent studies [3], [4], [15], [16] have suggested that....”

“For example, see [7].”

Creating a Reference List  The Reference List appears at the end of your paper and provides the full citations for all the references you have used. List all references numerically in the order they've been cited within the paper, and include the bracketed number at the beginning of each reference.

• Title your list as References either centered or aligned left at the top of the page.
• Create a hanging indent for each reference with the bracketed numbers flush with the left side of the page. The hanging indent highlights the numerical sequence of your references.
• The author’s name is listed as first initial, last name. Example: Adel Al Muhairy would be cited as A. Al Muhairy (NOT Al Muhairy, Adel).
• The title of an article is listed in quotation marks.
• The title of a journal or book is listed in italics.

The below examples are from the IEEE Citation Reference Guide and Murdoch University's IEEE Style LibGuide.

Examples of citations for different materials:

<table>

</tr>
</tbody>
</table>
Appendix G
Guidelines for presentation (Draft and Final)

Note that presentations, when delivered to an audience, are accompanied by presenter comments. To allow for appropriate review of your submission, you should provide enough supporting text for the presentation in an appropriate format, such as powerpoint notes pages, or simply an accompanying document.

**ASEE Inclusivity Guidelines for Presenters**

**Slides**

- Keep slide content to a minimum. This reduces cognitive load, which helps everyone, but is particularly helpful to people with disabilities such as dyslexia and ADHD.
- Use slides that are readable by someone who uses a screen reader due to visual impairment (this is really important for workshops or situations where presenters are sharing slides or other documents)
  - [Microsoft Instructions for Accessible Powerpoint Presentations](#)
- Choose colors that are appropriate for individuals with color visual deficiency (color blindness)- see above as well as these simulators and guidelines;
  - [USABILLA How to Design for Colorblindness](#)
  - [Test how your slide looks to someone with colorblindness](#)
  - [Colorblindness simulator](#)
- Use concise, descriptive URLs in your slides. Use Bit.Ly or a similar site to create these, and customize the link to reflect something relevant to the content. This is primarily for the benefit of people with visual disabilities so that they can quickly hear and access the URLs using their assistive technology, but it helps everyone.
- If you use video during your presentation, use video captioning. Find tips for creating captioned video here:
  - [University of Washington Accessible Technology Site](#)
  - [Envato Video Captioning Tutorial](#)
  - [Rev.com captioning Service ($1 per minute)](#)
- For slides shared electronically, use alt text for all graphics (including charts). Alt text is text describing the graphic (not just a title, and not a caption) in a way that allows screen reader users to “visualize” what’s on the page.
- Provide handouts of your notes pages (see guidelines below for disability-friendly handouts)

**Handouts**

- Provide a transcript of your presentation or copy of notes pages in a handout. This can be shared by providing a link at the beginning of the presentation. Additional details about the slides are helpful for those who have hearing impairment. Remember to shorten the link using Bit.ly or similar.
- Use handouts that are readable by someone who uses a screen reader due to visual impairment (this is really important for workshops or situations where presenters are sharing slides or other documents)
  - [Adobe Acrobat Instructions for Accessible PDFs](#)
- In the print documents, use Bit.ly or similar to create shorter URLs, and use embedded hyperlinks for the benefit of those using screen readers. For example:
  - Preferred: [Proceedings for the 2018 Annual Conference](#)
  - Not preferred: Proceedings for the 2018 Annual Conference can be found online
- In the print documents, use alt text for all graphics (including charts). Alt text is text describing the graphic (not just a title, and not a caption) in a way that allows screen reader users to
“visualize” what’s on the page. *This is strongly recommended for slides as well in the event that slides are shared electronically.*

**During the Session**

- Use a mic whenever anyone is speaking – assures that people with low-hearing can hear and one person speaks at a time, which is an broader inclusivity issues related to power dynamics (not being interrupted)
- Speak directly into the mic (most mics are unidirectional).
- If there is no audience mic, repeat the audience member’s question before answering it.
- Present in a way that allows audience members with visual disabilities to know what’s on the slides (i.e., be very descriptive).
