

Julia Ivanova
Student Participant
Technical University of Denmark

Biography

Julia Ivanova is a Biotechnology and Microelectronics Master student at Technical University Denmark with the bachelor degree from University of Canterbury, New Zealand.

During her 4-year long involvement in European Student Organisation BEST, she worked on connecting students across different educational fields and cultural backgrounds. She also specialised in implementation of complementary education and soft-skills transfer in the engineering environment.

She attended SEFI conference in Uppsala, Sweden in 2007 and for the past year was actively involved in planning 6th GCEE in Istanbul as a member of Student Platform for Engineering Education Development (SPEED). She is currently a Co-chair of the 2nd Global Student Forum Day.
