

Nicolò Wojewoda
Student
Delft University of Technology

Biography

Nicolò Wojewoda is a MSc student in Engineering & Policy Analysis at the Delft University of Technology (The Netherlands). During his BSc in Computer Engineering at the University of Rome "La Sapienza" (Italy), he has been an exchange student in Linköping University (Sweden). He has been first member, then coordinator (in 2005/2006) of the Educational Committee of BEST (Board of European Students of Technology) and as such, dealing with issues related to educational policies in the field of engineering. He is a member of the Management Committee and of the Scientific Committee of the TREE (Teaching and Research in Engineering in Europe) Thematic Network, supported by the European Commission in the framework of the SOCRATES Erasmus programme. He is also coordinating a Special Interest Group within the TREE Thematic Network called "Stimulating student research in the first cycle". In October 2006, he co-founded a worldwide student initiative for engineering education, which he is currently contributing to give concrete shape to. Since July 2007, he is a member of the Administrative Council of SEFI (European Society for Engineering Education). He is currently a visiting student at the Harbin Institute of Technology (People's Republic of China), in the Faculty of Technology, Policy and Management.
