

2016 ASEE Annual Conference

June 26-29, 2016

Call for Papers

Come to New Orleans!!!

(land of spicy food, good times, and one wide river)

Abstract Submission:

Start Date: September 1, 2015

End Date: October 19, 2015

The Engineering Technology Division (ETD) invites abstracts to those involved with engineering technology programs. In 2016, the conference will be held in New Orleans, which is in a geographically central location. The ETD is changing and evolving rapidly, and this is the ideal conference venue for you to network with colleagues, share best practices, and present some of the interesting pedagogical, applied research, and program development activities you've been working on.

Although all topics of interest will be considered, the ETD has identified a number of areas that would be of particular interest to its members:

- **New Technologies, including but not limited to**
 - UAV Systems
 - Experiences in the Maker World
- **Accreditation**
 - Accreditation issues
 - ABET Accreditation in a Box (possibly a workshop or panel session)
- **Pedagogy**
 - Control system teaching experiences
 - Embedded system teaching experiences
 - Online course development
 - Online Laboratory Instruction
- Innovative laboratory instructional models
- Preparing Students for the EIT Exam
- **Institutional Activities**
 - Cross-institutional activities
 - Global Engineering Education--how do USA style ET programs fit into the larger picture
 - Successful Branding and Marketing of ET programs
 - Diversifying ET by attracting (recruiting and retaining) more women and minorities in ET
 - Innovative Articulation Agreements
 - Applied Engineering

More Details:

Abstracts for the conference will need to be submitted via ASEE's web-based abstract and/or paper submission system (Monolith) at:

<http://www.asee.org/conferences-and-events/conferences/annual-conference/2016/program-schedule/call-for-papers>

Authors may obtain updates and information regarding Monolith and deadlines from the link. Abstracts should be between 300 and 500 words. **Abstracts can be submitted beginning September 1, 2015.**

Please note that ETD is a publish-to-present division. Acceptance of abstracts in the division does not ensure publication in the conference proceedings or presentation at the conference. All accepted peer-reviewed papers, based on the abstracts, must be approved prior to inclusion in the proceedings and before presentation at the conference.

The deadline for submission of abstracts is October 19, 2015.

Please take the time to submit your work so your peers can learn from what you're doing. If you have any questions, please contact me.

Regards,

Fatih Oncul, Ph.D.
