

The **Engineering Economy Division (EED)** of ASEE seeks submissions for the ASEE Annual Conference and Exposition being held in Tampa, Florida, June 15-19, 2019. Submissions will be accepted for traditional, **traditional full-length papers**, as well as a new "**Work-In-Progress Postcard**" format.

Abstract submission for traditional full-length papers with standard (15-20 minute) presentation:

Relevant submissions are welcome from all engineering disciplines. Topics of interest include, but are not limited to; economic analysis across engineering disciplines, innovative teaching methods for engineering economy, case studies for the classroom, integrating engineering economy research into the classroom, teaching engineering economy to diverse populations of students, and international aspects of engineering economy education.

Submissions specifically related to diversity, equity and inclusion in engineering economy education are welcomed and encouraged.

Abstract submission for "Work-In-Progress" papers with new "postcard" sessions:

Submissions of "Work-In-Progress" (WIP) papers will be considered for presentation in special "postcard" sessions. WIP abstracts should be submitted through the usual paper management system, and designed "work-in-progress". WIP papers WILL require a paper submission, but papers may be shorter (6 pages or less). WIP papers will be presented in a new format, the 5-Minute Work-in-Progress Postcard Session. This special format session gives authors of Work-in-Progress (WIP) papers the opportunity to pitch their work with a two-slide (back and front of a postcard) overview of their work in five minutes or less. After all pitches are made, attendees will have the opportunity to visit with the authors, allowing them to receive feedback and discuss aspects of their work in greater detail.

Abstract submission details (including the Author's Kit with deadlines and instructions) can be found on ASEE's conference website at:

<https://www.asee.org/conferences-and-events/conferences/annual-conference/2019/papers-management/for-authors>

Award Opportunities:

Authors of accepted abstracts will be invited to submit full length papers for peer review and inclusion in the conference proceedings, and all accepted papers will be considered for the **division's \$1000 Best Paper award**.

In addition, we especially welcome submissions from **new engineering economy educators** (students and/or faculty teaching engineering economy less than 5 years) and if accepted, these authors will be eligible for up to a **\$1000 conference sponsorship** to cover expenses of attending and presenting at the annual conference.

For more information, please contact the Engineering Economy Division program chair, Kellie Grasman at kgrasman@mst.edu.
