Call for Papers- ASEE Engineering Economy Division (EED)

The Engineering Economy Division (EED) of ASEE seeks papers for presentation at the 2021 ASEE Annual Conference and Exposition being held in Long Beach, California, June 27-30, 2021.

We seek relevant abstract submissions for research-based full and work-in-progress papers for our traditional Technical Sessions covering a broad spectrum of engineering economy topics including, but not limited to:

- Economic analysis across engineering disciplines
- Integrating engineering economy research into the classroom
- International aspects of engineering economy education
- Diversity, equity, and inclusion in engineering economy education
- Innovative teaching methods for engineering economy
- Case studies for the classroom
- Course adaptations due to the COVID-19 pandemic

We also seek submissions for two Special Sessions designed to uncover and explore the state-of-the-art of engineering economy education by bringing together new and seasoned engineering economy educators in an engaging, low-risk, high-reward way:

**Course Strategies for Engineering Economy Instruction**
Interactive, panel-type session addressing effective strategies for teaching engineering economy. From large lecture halls, to online courses, to smaller traditional classrooms, the panel will use submitted papers to frame the discussion and draw insights about what really works in engineering economy education. This session is perfect for new educators, those just beginning to teach EE, anyone considering redesigning or updating their course, and experienced educators who have their course strategy for engineering economy down to a science.

**Curriculum Elements for Innovative Teaching**
Do you have a curriculum element that you want to share?
- Include real-world scenarios in a case study?
- Use technology to improve group projects conducted remotely?
- Use online assessment for quizzes and tests?
- Have a technique for teaching financial risk using simulation?

This session will feature a collection of the very best in innovative teaching in engineering economy. You will have the opportunity to share your technique with everyone and then dive deeper with those who are most interested in learning more. This session is perfect for anyone interested learning new techniques or sharing a proven teaching tool with others. We welcome abstracts and papers on curriculum elements introduced due to the COVID-19 pandemic.

**Authors of accepted abstracts will be invited to submit papers for peer review and inclusion in the conference proceedings. All accepted papers are eligible for the EED Best Paper Award.** We encourage submissions from new educators who are eligible for our $1,000 New Engineering Economy Educator Award. In addition, authors submitting to the special sessions may be eligible for a $500 Travel Sponsorship to help defray the cost of attending the conference.

If you have questions or would like additional information, contact the engineering economy Division Program Chair, Ona Egbue at egbueo@uscupstate.edu or Division Chair, Jim Burns at j.burns@wmich.edu, or visit us on the web (https://sites.asee.org/eed/).

**Submission details, paper management information, and author’s kit can be found at the links below.**
